Maj^r. Tilden & Mr. Sturgis a Comm^{ee}. on the application of Dr. Dexter & others relative to raising Milk Street—

The Committee appointed to consider & Report on the Article of the Warrant relative to applying to the General Court for restrictions on the Aqueduct Corporation—

Report—That by the Act passed the 27th. of February 1795, the Associates in the above Corporation are invested with full power to open the ground in any part of the streets & hig[h] ways in the Towns of Roxbury & Boston at any time for the purpose of sinking or repairing such Aqueduct without any controll assent or restriction from the Selectmen or Surveyers of the Highways of either of those Towns

These unqualified powers have been productive already of some complaint & may lead to consequential injury by subjecting the Town to Litigations with the Aqueduct Proprietors, or sadling the Inhabitants with the expence of extra repairs of their Streets—

Your Comm^{ee}. therefore propose that the Town Instruct their Representatives in the General Court to obtain an additional one in amendment of the same to the following effect viz^t.—

[267.] 1st. That no pavement be taken up previous to the 1st Day of April, nor after the first Day of October in any year—

2nd. That the Selectmen or the Persons whom they shall appoint shall determine on what part of the Street the pavement shall be removed for the purpose of sinking the Pipes of the Aqueduct & to what extent untill the repair is completed.

3^d. That the Selectmen or Surveyers of the High Ways be empower'd to direct the re-pavement so as to have the same substantially & effectually done—

These Resolutions appear reasonable because when the Town when on the 7th. of Feb^y. 1795.. assented to the Proprietors being incorporated it was with the express *proviso*, that the Proprietors should be holden to put the Streets which should be opened

in as good repair, as they were previous thereto, & that such other guards & restrictions should be inserted in the Act as should effectually secure the Town from injury—

All of which is respectfully submitted

We understand centry street to be an ancient way, allowed by the town, the proof of which is shown by the Records or lists on ancient reputation. We know of no law of the Commonwealth or principle of common law on which M^r. Rogers can compel the Town to erect a defensive wall where the way is dug, or on which he can recover damages for an injury by his land being washed down—he can make a wall on his own land if one is necessary to him—or as an accommodation to his case—the Selectmen can, if they please, allow him to support one on the verge of the Street against the bank if he chooses to make one there—

JAMES SULLIVAN
JOHN LOWELL JUN^r.

I am of opinion that the Selectmen as Surveyers of the high ways have a right to dig up any Earth or other materials so as to make them convenient for passing without being in any degree responsible or rendering the Town responsible for any injury or inconvenience which may result therefrom to the Abutters on such high ways

M^r. Parsons & Daniel Sergeant Esq appeared & stated that the Wharff through which the Drain pass if it is continued is made wholly of sticks of Pine Timber laid Cross ways which are only 12 feet long, that by cutting through them the work would be much injured & might endanger the total ruin of the passage way that the business of the Wharff would be greatly incommoded during the winter, they therefore request that the work may be suspended untill Spring, & engaged that the Drain may be carried in that season in any direction which the Selectmen may consider most advantageous to the public and the Proprietors of the Common Sewer, even if it should be thro'. land which is their

property—the subject being considered it was unanimously agreed to suspend the work untill the Spring, and orders were given to M^r. Homer accordingly—

A request was received from the Proprietors of the Wells & Pumps in Spring Lane that the Town would bear a proportion of the repairs that are now wanted on the Well as the Spring is of very general use in that Neighbourhood—After conversation on this subject, it was agreed that as the Town had never borne any part of such expence, it must still be considered at the charge of the Proprietors subject to y^e. regulation [215.] of the By-Law—It was ordered that the Town Pump in Corn hill being now gone to decay & incommoding the public passage in that Street should be removed, & the Street paved over the Well, removing an opening to be covered with flat Stone, sufficient to introduce a suction hose in case of fire—

Upon viewing the wall of the cellar now building by M^r. Hammond on Market Square, some doubts arose respecting his compliance with the spirit of the agreement with the Board as on record March 14th. last—The Votes of that date express that the new front line shall be from the South west corner of Newells wall to a point 3 feet in advance to the northwest corner of the old Store—Upon making an accurate survey it is found that the described line would take off from M^r. Hammond & M^r. Newell 6 feet 3 Inches instead of 2 feet or thereabouts which was M^r. Hammonds proposition & what he thought to be the interest of the Board upon which his estimates & his contracts with Newell

had been made—after fully considering the subject it was determined by the Members present that the above bounden line would take off from M^r. Hammonds & M^r. Newells Land more than was expected, owing to the curve line of the Street, & that M^r. Hammond be allowed to build his brick wall upon the present foundation, to carry it as far back as the inside face of the Wall so that the front should be 2-4. or 2-6 inches from his Ancient line—

The Comm^{ee}. on the subject of the Bridge landing Report^d. that they had met & had conferred with the Comm^{ee}. of the Proprietors

& offered them the terms proposed at the last Meeting which they would not consent to, but proposed the following—That the Proprietors of the Bridge should fill up the whole of the Flatts before the Towns land to the east side of Front Street & should build a sufficient Stone head & secure the land sufficiently on the South line—that the Town should bear one half of the expence of the above, and lay out a Street 40 feet wide from Orange Street to the Bridge & give as much of the flatts belonging to the Town as may be wanted to build a Wharff upon the dimensions & in the situation required by the Act of Incorporation of the South Bridge Proprietors—

Bridge on the Towns land Reported—That in drawing the lines for the direction of the Bridge to the South side of the land, the Street would cross the land diagonally, and divide it to great disadvantage; they had therefore suspended the work of the decision of the bounds—Deacon Brown & Cap^t. Curtis were present & communicated verbally their propositions—after full consideration of the subject it was determined that it would be a great injury to the value of the Towns land to attempt to carry the Street from Orange Street to Front Street in a perfectly straight line with the

Bridge, and that y^e. Street should be laid out 40 feet wide thro.' the Centre of the Towns Land, which would occasion a small bend at the Bridge on Front Street—Orders were accordingly given to the Workmen to drive their piles conformable to the above.

The following Resolution passed the Board—viz—

Whereas a Bill is now pending before the Legislature of this Commonwealth explanatory of the Act entitled an Act to regulate the paving of Streets in the Town of Boston & for removing obstructions in the same—Voted, that it is the opinion of this Board, that if the said Bill should pass into a Law, it ought to have no effect upon the question in dispute between the Selectmen & Mess^{rs}: George Blanchard & Bryant P. Tilden relative to proceedings in High Street; but that said question shall be considered upon the construction of the existing laws at the time of said proceedings in November & Decem^r. last.

The following are the proceedings alluded to above & are here entred together to affor'd a complete view of the subject

Record of proceedings relative to High Street

On the 14th of November last M^r. George Blanchard & M^r. Bryant P. Tilden waited personally on the Selectmen then in Session at their room & complain'd that D^r. Aaron Dexter had given orders to his workmen to build the S^o. Wall of his Cellar in High Street in Land which the former Proprietor of said land had given into the Street; that if that is allowed the Town would suffer by having the Street reduced, in width, & that M^r. Blanchard & Tildens houses would be much injured by D^r. Dexters advancing in front of the line which they had considered the line of the Street, & in which they had accordingly built their Houses

[240.] After acting upon other business the Board Adjourned to High Street to view the Premises, and to determine the line of the Street, being there assembled they determined that the northerly line of the Street from the westerly fence of George Blanchards Garden to the east end of Deacon Wrights Land should be along the front of Mess^{rs}: Blanchard & Tildens houses & continued in a straight direction in front of land of D^r. Dexter to the lamp post at the end of Deacon Wrights ground and that all the land south of this line which had been formerly part of Whites Garden so called should in future be considered as high way.

The Chairman being desired to communicate the above to D^r. Dexter a billet was sent him the same evening containing the substance of the above & his workmen desisted from laying stones on the front line; D^r. Dexter afterwards called personally on the Chairman to express his readiness to conform to the decision of the Selectmen but expected as that he was not allowed to advance into the Street Mess. Tilden & Blanchard would not be permitted to encumber the Street with the steps to their houses, the foundation to which was now laying to extend nearly 30 feet along the foot walk—

At the Meeting of the Selectmen the 21st. of November D^r. Dexters representation was laid before the Board & Mess^{rs}: Bulfinch Tileston & Oliver were appointed a Comm^{ee}. to see Mess^{rs}: Blanchard & Tilden to state the objections that had been made & to propose another mode of entring their houses by steps within side—This Comm^{ee}. waited on the Gentlemen at M^r. Blanchards dwelling house and pointed out a mode by which the Street might be kept clear of encumbrance from steps, & they might conveniently enter their houses under cover, at much less expence than any Stone steps & Iron Railing as proposed in the Street. The Gentlemen agreed to consider the proposal & to communicate

their decision to the Chairman which they did verbally the next day in State Street, that they "could not think of altering their plan;" the workmen then proceeded to level the foundation and to lay the first step, upon information of which the Chairman on Friday Morning the 23rd. measured the foundation & the step already laid & found they would extend 29 feet along the front of y^e. houses to project 3 feet 6 inches in the narrowest part & four feet in the center for an extent of 13 feet 9 inches. he immediately wrote to Mess^{rs}: Blanchard & Tilden informing them that their steps would exceed the limits allowed by law & advising them to desist before they had incurred any further expence

A special Meeting of the Selectmen was held the next day Feb^y. 24 at Noon present Mess^{rs}: Bulfinch, Tilden Tileston, Hunnewell Oliver May & Wright, when the Chairman informed the Board what had been done since the last Meeting, which was approved by the Board. It was then considered whether the former proceedings [241.] should be reversed, & all the Claimants be allowed to advance into the Street it was again determined to continue the North line of High Street as it had been laid out the 14 Inst.—that the proposed steps would be an incumbrance & encroachment on the Street & that the Chairman should take measures to remove them. The above was communicated to Mess: Blanchard & Tilden by billet, copy on file—

At the regular Meeting of the Selectmen on Monday the 26 of November a letter from Mess^{rs}: Blanchard & Tilden was read stating the circumstances of their land & what they considered their claims for indulgence, claiming as their own the land which in their first application they had called part of the Street, the following billet was agreed upon to be sent by the Chairman—

"I have laid before the Selectmen your last statement respecting the line of High Street in front of your Houses & your claims of indulgence in the liberty of building the steps as proposed. The Board has again considered the subject & after full deliberation have Judged it their duty to adhere to their first determination, that the land south of your houses is part of High Street & that the steps being an incumbrance should be removed, they consent to your having two steps into the Street, paralell with the front of your houses; being in equal indulgence with that to M^r. Sergeant & Higginson & hope for your ready compliance with their determination "

The workmen notwithstanding the above proceeded to lay & complete the steps; the Chairman gave orders to M^r. Sergeant & Hart to take down the same, and on the 7th. of December went with them and removed the upper step & a few days after the workmen took down the remainder & carefully piled them away.

[394.] The Comm^{ee}. chosen on the 20th. of July to view & ascertain the line of the Street in front of the Old Brick Meeting house Reported, that in their opinion the Proprietors may have liberty to advance with their new building as far forward as the front of the porch now standing & the railing before the house & no further—

The above report was read & considered at the meeting of the Board the 4th. Inst. and was accepted. The Chairman was desired to communicate a copy thereof to M^r. Joy, the present proprietor of the land & building—On the 5 Ins^t. a letter was received from M^r. Joy requesting to be heard respect^s his claims & he & the owners of the adjoining estates, were notified to appear before the Board which they accordingly did, repeatedly, and the present meeting was assigned for considering & determining the subject—At this time M^r. Joy appeared with Charles Pain Esq. & M^r. Joseph Peirce with Thomas Dawes Jun^r. Esq. M^r. Joy stated his claim to the land in front of the old brick church to the line of Corn hill as established by the Justices & Selectmen after the great fire in 1711—Upon referring to the Town books of that period, it appeared that the west side of Cornhill from Court Street to Williams's Court, now so called was laid out on the 14. of Novem^r. 1711 in a straight line—M^r. Peirces objections to this claim were heard; that the land between the porch & the line of the street was forfeited to the public from having laid open more than 60 years—

After the parties had been heard & had withdrawn, the subject was considered & it was determined by the members present (M^r. Hunnewell having withdrawn) that the west line of the street was as described on the record of Nov^r. 14. 1711 and the land within the line having been occupied by the proprietors of the building had not been forfeited by law—

The Chairman was then desired to inform M^r. Joy that the Board agreed to his proposal to bring his new building as far forward as the corner of Creases' estate & a line paralell at the same distance through the whole front, that no ornaments or pillars should advance further than this line, & that an angle of [395.] about 6 feet should be taken off from each corner of the Building and that he should give a deed to the Town of said angles or peices of land that they should be kept open & unincumbered with Buildings forever—

Several Persons having applied for the Office of Town Cryer, M^r. James Willson being very highly recommended was chosen to the Office—

M^r. Joseph Bumsted was approved as a Book Auctioneer

George Erving at 650 Dollars—It was requested that the Board would allow the amount of the last appraisement with interest or consent to the nomination of a new Comm^{ee}. to settle the sum to be paid—M^r. Gray having withdrawn the subject was considered, & the proceedings of that date being referred to it appeared that the appraisement on the part of the Selectmen was made by Judicious persons who

also appraised other property taken at the same time to widen the Street—It was agreed to pay to the Heirs of John Erving Esq. who have now obtained a legal right to said Estate the sum of 250 Dollars with interest from April 25—1808—

M^r Caleb Loring Jun^r. was chosen sealer & weigher of lighters & boats for conveyance of stones, sand & gravel.—

The Chairman informed the board that he had complied with their directions at the last meeting; to ask the attention of the Mill Corporation to the state of drains & cellars on the southerly side of the pond, his letter is on file—Nothing effectual having been yet done, the board directed a further communication on the subject & which was sent as followes.—

To the President & Directors of Mill Corporation

Gentlemen

The abutters on Distill house square have informed the Selectmen that their houses, from Sudbury Street to M^r Tidds distil house are deprived of the drains from their cellars by filling up the mill pond; that many of their cellars are consequently overflowed with water; and that the board of Health has ordered them to remove the water as a Nuisance.—

The Selectmen upon hearing this representation, have considered the peculiar [469.] situation of the proprietors on this street, and are of opinion that by the Contract with Mill Corporation, the old drains must be continued, or a new common sewer must be laid for them in the street, to connect at each end with the sewers that lead through the Pond.

I am desired to call the attention of the directors to this subject, that they would take immediate measures to rid those cellars of water in either of the modes above pointed out; as a condition of the contract with the Town, & as [an] indispensable necessity for preserving the health of that neighbourhood.—

Jurors were drawn for the District Court—& another list for the Court of Common Pleas.—

A number of the Abutters on Distill hill square appeared on the subject of their Cellars being filled with water.—

From their representation it appeared, that their drains into the Mill Pond had [470.] been stopped by the filling of the Pond; that the board of health had ordered a drain to be dug in the street to communicate with their cellars, & had informed them that the expence thereof must be paid by the abutters.—The applicants complained of being deprived of their old drains, & of the hardship of being compelled to pay the cost of a new one.—After much discussion, they withdrew; & the board requested the Town Advocate to attend; who gave his opinion; that the board of health could proceed to lay the new drain, but must of necessity assess the expence upon the persons on whose property the nuisance existed: but such persons would have a right to prosecute the Mill Corporation as having occasioned the difficulty in the first instance.—

A petition on a similar subject from the inhabitants of Prince street, was read; complaining of the overflow of their cellars.—The board being informed that the Directors of the Mill Corporation had appointed a Committee to confer with the Selectmen upon this, & other subjects relative to their proceedings in the Pond: it was agreed to meet on [471.] Saturday next at noon: to receive any Communications from such Committee.—

Boston ss. At a Meeting of the Selectmen June 16th 1810. Present Mess^{rs}. Bulfinch, Porter, Hunnewell, May, Wright, Webb & Weld.—

The Chairman informed that the workmen were now ready to lay the corner of the New England Office, building, on Exchange Lane, and had received orders to lay the corner Stone [472.] in such a manner as would reduce the Street three inches from the intended width.—the Gentlemen present proceeded to the spot and directed the workmen to lay the wall so as to leave the street 23 feet 11 Inches wide according to the Plan.—

The same bond being approved; it was agreed to lay out said Street and widen said square as follows.—

The Selectmen of the Town of Boston, having observed since the removal of several of the public offices to the Exchange Coffee house, that the entrance to the north side thereof is exceedingly crowded & inconvenient, in consequence of the narrowness of the passages leading thereto; and application having been made to them to exercise the powers vested in them by Law to lay out & widen said passages: they have accordingly considered the subject, and have determined that, in their opinion, the safety & convenience of the Inhabitants require that *half Court Square*, so called, [488.] should be widened; and that *a Street should*

be laid out on the north side of said building to lead from Congress Street to Devonshire Street: and they do accordingly lay out said Street & widen said square as follows.—Said Street to begin on Congress Street; and to extend in width *Thirty* feet from the north wall of the Exchange Coffee house, and to continue of the same width of thirty feet westerly to half Court square; reserving to the Proprietors of the Exchange Coffee house, the liberty to continue the present portico at the north side of their building, provided the steps shall be removed from the front thereof, and be made to ascend on each side, within the compass of the present platform: And the said half Court square to be widened, by adding to the present street or high way, all that triangular piece of land partly covered with a wooden building, and which lies North of the street last described, and west of a line to be drawn from the southwesterly corner of the brick house belonging to John Lowell Esquire to the easterly side post of the door of the Exchange Coffee house:—said line passing through a point on the north side of the first [489.] described Street, nineteen feet east of the present line of half Court square—The above description being intended to conform to a plan of said street & square, drawn by M^r Thomas W. Sumner; and the land taken for said Street measures 1830 square feet; and the land taken to widen said square measures $503\frac{1}{2}$ square feet; as appears by the same plan.—

A proposal was received from M^r Leverett to convey to the Town, the right of the heirs to a piece of Land 20 by 80 feet square, lying immediately under the new Almshouse, and for which they have commenced a suit in the County of Norfolk:—for the sum of $701\frac{25}{100}$ dols payable in one year from the date of the former Award:—The subject was considered, & the proposal was agreed to, & the Chairman was desired to have the deed prepared Accordingly.—

Skinner in Sister Street, reported that they had again investigated his claim to compensation from Mess^{rs} Blanchard, Dexter & Tilden:—but it appearing to the board that the parties could not agree upon any statement of facts, and that the drain had been laid by M^r. Skinner without taking the legal measures of applying to this board; that therefore the Selectmen could not enforce any payment of assessment that they might make, & therefore it was voted to take no further measures on the subject.

A petition was handed in from a great number of the proprietors of the second Baptist Church, requesting that North Margin Street, on the Mill Pond, should be so altered as to range with the southerly end of their new building.—the same was committed to Mess^{rs} May, Webb & Weld, to confer with the Petitioners, and examine the expediency of the proposed measure & report.—

Boston ss. At a Meeting of the Selectmen October 24th. 1810. Present Mess^{rs} Bulfinch, Porter, Oliver, Hunnewell, May, Wright, Foster, Webb & Weld.—

A question having arisen whether it was the intention of the board to allow Interest on the sum allowed M^r R. G. Shaw for land taken to widen Fish Street; the [501.] subject was considered & it was agreed that the Note given him by the Treasurer should be upon Interest.—

Several new applications were received from persons requesting licenses as Auctioneers—& several Memorials from those whose licenses had not been renewed this season.—these were read, & the subject considered—and it was determined to grant no licenses in addition to the last list, at present.—

When the two last questions were taken M^r. Porter & M^r. Hunnewell had withdrawn.—

The Chairman was desired to notify the persons assessed for part of the expence of opening Exchange lane that the time for paying one half of such Assessment had expired, & to request them to pay the same to the Town Treasurer.—

Pursuant to a precept received from Thomas Dawes Esq. Judge of Probate for the County of Suffolk, inquisition was made into the circumstances of Samuel Bulfinch—and return was made that he was incapable of taking care of his property & recommending that a Guardian should be appointed for him.—

[502.] Boston ss. At a Meeting of the Selectmen October 29th. 1810. Present Mess^{rs}: Bulfinch, Oliver, May, Wright, Webb & Weld.—

Passed upon Accounts.—

The following Statement of the claims of M^r. John Leverett & others for land under part of the Alms house, and of their final adjustment, are directed to be recorded for the convenience of reference in future.—

Mess^{rs}: John Leverett & others, heirs of Knight Leverett deceased, brought a suit against the Town for recovery of a piece of land forty feet wide on Leverett Street & running to low water, and also for another piece twenty feet wide & forty feet long branching from the other at right angles—both which pieces had been appropriated & described in Ancient deeds of Knight Leverett as streets or highways. The Agents appointed by the Town to build the Alms house had occupied the said land for Town use, and had built the Alms house entirely over the smaller piece and across the forty foot Street, and had enclosed the remainder for yard & Wharf.—

The suit for the largest piece of [503.] land, or the forty foot street, was carried to the Supreme Judicial Court; and the

plaintiffs having proved their descent & title, it was agreed to refer the consideration of damages to William Prescott, Samuel Putnam & William Sullivan Esquires—a rule of Court was entered into, the subject was considered by the referees, & after hearing Counsel on both sides, they agreed upon their award.—

The rule and award are as follow.—

Suffolk & }
Nantucket ss } Commonwealth of Massachusetts.

At the Supreme Judicial Court, begun & held at Boston within the County of Suffolk, & for the Counties of Suffolk & Nantucket, on the second Tuesday of March, being the thirteenth day of said Month, Anno Domini 1810.

Inhabitants of Boston, in Review vs John Leverett.

The parties agree that the verdict rendered in favor of the demandant in the original action, shall be affirmed by the Court and judgement rendered accordingly with costs; and the demandant agrees to convey to the said Inhabitants all his right & title in & to the [504.] said demanded premises upon their paying him therefor such sum as shall be assessed by William Prescott of said Boston, Samuel Putnam of Salem & William Sullivan of Boston Esquires, Assessors chosen by the parties; said Assessors to be governed by such principles as the Court shall prescribe, and their report to be presented to the Court for acceptance and Confirmation, if either party shall require it. Provided such sum be paid by the Town within one year after such report. It being understood that neither party will require such report to be presented to the Court for acceptance, unless such party should conceive that the assessors have not been governed by the directions of the Court. It is also agreed that the costs of this reference shall be paid by the said Inhabitants of the Town of Boston.—

The Court under the preceding agreement of the parties and by their consent, direct that the Assessors chosen under this agreement by the parties shall in the valuation of the demanded premises estimate the land, at the fair cash price of the same, subject to the incumbrances thereon (in the same manner as a Jury would estimate [505.] the same, on an inquiry under the Statute of the Commonwealth passed on the 2^d day of March 1808, intituled “an Act for the limitation of certain real actions, and for the equitable settlement of certain claims arising in real actions”)—The assessors shall make such allowance for the credit given for the sum at which the premises are valued as they may think proper.

JN^O. TUCKER—Clerk

We the Subscribers having duly notified, met & heard the parties within named touching the matters to us submitted by the within rule, now report, that we have estimated the demanded premises, that is to say, Seven undivided Forty fifth parts of the parcel of land described in the demandants writ, at the fair cash price thereof, subject to the incumbrances thereon, & are of opinion that the same so estimated & subject to said incumbrances are of the real value of Three hundred & three Dollars & three Cents, and that for the credit agreed to be given therefor, a further sum of Twenty four dollars & twenty two cents ought to be allowed, making in the whole—Three hundred & twenty seven dollars & Twenty five Cents

[511.] M^r. Clark Emmes applied to inquire the reason that his bill for making engine hose had not been allowed the full amount of his charge—and stated the superior advantages of the hose made by him.—A. Communication was also read from M^r Fenno on this subject—and it appearing to the board that a regular mode ought to be adopted for purchasing this article; the papers were handed to M^r. M^r. Wright was requested to procure a quantity of musket balls, in addition to what is at present in the Town armoury, to

complete the quantity required by Law, in consequence of the increased number of men on the muster rolls of the Militia.—

Several Gentlemen residing on & in the neighbourhood of Snowhill street, appeared to state the almost impassable situation of that Street, in consequence of the great use made of it in carting gravel from Copp's hill the present season—

M^r Hunnewell & M^r. May were appointed a Committee to view the same and order the necessary repairs immediately.—

A letter received from H. G. Otis Esq dated Oct^r. 16th having been read at the last Meeting, was now considered and acted upon.—In this letter M^r. Otis informs the board that he is a proprietor of a Lot of land at the corner of Atkinson & Purchase streets, late the property of Gen Henry Jackson, from which lot two strips [514.] of land to widen those Streets after the fire in 1794, and for which no compensation has been made to the former or present proprietor.—Upon referring to the records of that time, it appears that those streets were widened, according to the then existing Laws by the Selectmen & Justices of the County of Suffolk; and a particular statement appears of the quantity of Land taken for that purpose on a plan by Osgood Carleton drawn at the same period.—The following resolution was now adopted, & voted to be communicated to M^r Otis.—

Upon examination the Selectmen find, that in 1794, in order to widen Atkinson Street, High Street & Purchase Street, after a very extensive devastation by fire, portions of land were taken from most of the individuals abutting on these streets & which are described in the plan drawn at that time by Osgood Carleton.—The board do not find that any demand for compensation has ever been made by any person whose land was taken for this purpose, and they presume, the straightening & widening of the streets were considered so great an improvement to all the property abutting on them, as to satisfy [515.] the proprietors for the loss of the small portions of their land added to the Streets

The board are further of Opinion, that after a lapse of sixteen years, without any demand being made, it is not in their power to act upon the subject; but that the claim should it be persisted in be laid before the Town at a regular Town meeting.—

The Chairman & M^r. Porter having withdrawn—

M^r. Oliver was requested to take the Chair.—

The following communication was read from M^r Bulfinch.

Gentlemen,

In the estimate of expences for the present year, a sum was named for the police department, which was read in Town Meeting, and was adopted with other appropriations.—I have not yet brought the subject before the board, from an unwillingness to make claims upon the public; but I must now request you to consider that the Town service occupies nearly my whole time, at home, in Office hours and in the Street, and

renders it impossible for me to engage in any regular business, except that of the Town.

I have long wished to be able to serve the Town upon the same independent footing with the other members of the Board: but the stagnation of business and the [518.] disappointment of expectations in the two past years have prevented my obtaining my wish in this respect.

Under the circumstances I request the Board to consider the propriety of making my compensation in proportion to that of other Town Officers who receive pay for their services.—

The subject was considered, & on motion Voted, unanimously, That the sum of four hundred Dollars be allowed & paid to Cha^s. Bulfinch Esq. in addition to his Salary of six hundred Dollars, as Police officer the present year.—

Two Jurors were drawn for the District Court now sitting.—

The Committee appointed at the last Meeting to consider the subject of sweeping chimneys, reported.—That M^r Vinton had informed them, that he kept two public offices for the convenience of the Inhabitants to apply & enter their names in his books—one of which offices was at the [519.] room of the Clerk of the Market & the other at N^o. 100 Orange Street.—that he now had six capable Sweeps under his orders; and would engage to continue to employ such number as should be thought necessary—the Committee therefore recommended not to make any new appointment of additional superintendent; but that M^r. Vinton should inform the public of these particulars by advertisement, and request all who have occasion for sweeps to apply at one of his Offices, and not to trust to applications or messages sent him by his Boys, & made to them in the Streets.—

This Report was accepted, & Voted, That the Chairman add to the foot of M^r Vinton's advertisement a request that the Inhabitants would adopt the method proposed by him, and give information to the board of any neglect on his part after regular application made to him.—

A Petition was received from a number of Inhabitants requesting that measures should be taken to prevent the Boys from coasting in the public Streets.—The Chairman was directed to publish an order to forbid this practice, and to employ a suitable number of Constables to stop any boys that shall continue it in hazardous situations.—

[522.] Now the said John Homer having paid as above the amount which he had contracted to pay; it is ordered that the Town Treasurer discharge the Mortgage on the estate of said Homer in Derne Street, which was given by him as surety for said Contract.—

M^r. Wright of the Committee on application of Cap^t. Nye of the Artillery Company under his command—Reports, that he has consulted the Brigadier General respecting the construction of the

Militia Law in this particular & reports that they are unanimously of opinion that the Artillery Companies are *not* entitled to receive such allowance of powder as prayed for; but that provision is made for the Artillery by the Commonwealth, to be supplied by the Quarter Master General.

This report having been read and considered was accepted.—

28 Jurors were drawn for Court of Com. Pleas—& 4 Jurors were drawn for the District Court now sitting.

Applications were received from the following persons requesting to be licensed as Auctioneers—M^r. Henry White, George Wheeler Nathaniel Tucker & James Fillis. The [523.] above named persons being all recommended by a number of very respectable Freeholders—and their claims to this appointment having been fully considered, it was agreed to grant a license to each of them.—

The Chairman informed the board that he had received from the Clerk of the Court of Com. Pleas, notice that the verdict of the Jury in the case of James Harrison for land taken for streets near the Exchange Coffee house had been accepted, and an order had passed that the Amount being 19148 dollars be paid out of the Town Treasury.—upon the receipt of the above the Chairman had communicated the same to the President & Directors of the Exchange Coffee house, & requested them to make provision for the payment, or take such other measures as to prevent inconvenience to the Town.—

The Chairman informed the board, that he had been summoned to Court upon an indictment found against the Town by the Grand Jury, for a nuisance at the west end of Leverett Street, being the wharf from which the dirt & Night Carts of the Town are emptied by order of the Board of Health:—that he had attended the Court, but the cause had been postponed to the next term, to give convenient time to the Town [524.] to choose an Agent to answer to the Charge.

The Committee charged to stake out the Town's property on Beacon hill, reported that they had met on the hill, in company with the owners of the other part of the land, and had proceeded to measure & stake out six rods square on the summit of the hill, in company with the owners of the other part of the land, and had proceeded to measure & stake out six rods square on the summit of the hill & the passage way of thirty feet wide leading thereto on the south side. The Committee found that a large portion of the north east corner of the land had caved away, the earth from which had been used for the repair of streets the present season; and that on the South west corner about fifteen

feet at the extreme angle had been taken away by Mess^{rs} Hancock.—

Boston ss. At a meeting of the Selectmen December 26th. 1810. Present Mess^{rs}: Bulfinch, Oliver, Hunnewell, May, Wright, Foster, Webb & Weld.—

9 Jurors were drawn for the District Court & 30 Jurors were drawn for the Supreme Court.—

The Committee chosen to procure a suitable place for the School street Engine house reported, that it could not be accommodated on the land on & near which it now stands as the proprietors intend to build houses [525.] on the same land early in the spring: but that sufficient room may be allowed for it back of the Latin school—The Chairman & M^r Hunnewell were desired to contract with workmen for a building which may answer for an engine house, a wood house & Necessary for the latin School, as the present buildings are in a ruinous state & not capable of repair.

An application was received from William Bell, stating that in paving North Street, he had undertaken the side walk in front of the house occupied by Cap^t. Curtis—and had procured edge stones & other materials for the same; that M^r. Curtis had since left the Country without paying the bills as he had promised & that the said Bell had been sued for part of the materials, for which Execution had issued, and which he was unable to pay; he therefore requested the Board to allow him the amount of the bill of edge stones amounting to 43.36. and he would abide by the loss of the other materials & of his labour & the costs of suit. The subject was considered, & it appearing that M^r Bell had taken all suitable means to recover the debt from Cap^t. Curtis without effect, it was determined that the provisions of the Law regulating the paving of Streets, [526.] would justify the board in allowing the present account & it was agreed to give an order on the Treasurer for \$43.36 in the next draft.—
